

CROMWELL Atlas Workholders. Castor, Heavy Duty, Braked, Swivel, 150mm, 250kg Load Capacity

Cod comanda: **ATL9457401K**

Descriere produs:

These stainless-steel castors, designed for use in corrosive environments, offer exceptional durability and chemical resistance, making them ideal for demanding applications such as food processing, bakeries, and autoclaves. The wheels feature a hard-wearing polyurethane tread bonded to a nylon core, ensuring smooth and quiet operation, even under heavy loads. With temperature and chemical resistance, these castors are built to withstand tough industrial environments. Features and Benefits o 80kg to 240kg load capacity depending on wheel size and design o Corrosion-resistant stainless steel with chemical-resistant polyurethane tyres o Nylon core with polyurethane tread provides a smooth, durable performance o Braked design allows for secure, stationary positioning o Braked swivel offers enhanced safety and control o Top plate or bolt hole mounting available for easy installation
