

CROMWELL Atlas Workholders. Wheel, Heavy Duty, Unbraked, 355mm, 185kg Load Capacity

Cod comanda: **ATL9459054K**

Descriere produs:

These Unbraked Pneumatic Tyred Wheels with polypropylene centres are designed for durability and performance across various surfaces. The wheels come in sizes ranging from 220mm to 405mm and are equipped with either patterned or ribbed tread, depending on the diameter. Constructed with a robust 4-ply rubber tyre, they are rated for a maximum pressure of 30psi, ensuring reliable operation in medium to heavy-duty applications. Suitable for sack trucks and other equipment, these wheels are built to handle diverse environments and provide long-lasting performance. Features and Benefits of 4-ply rubber tyre construction enhances durability and strength of Suitable for medium to heavy-duty applications, such as sack trucks of Polypropylene centre provides optimal performance and longevity of Design is ideal for applications where braking is not required of Pneumatic design provides enhanced cushioning and stability Notes of Patterned tread for smaller sizes (220mm - 300mm) and ribbed tread for larger sizes (355mm - 400mm) offering improved traction
