

CROMWELL Fabory. M6 x 200mm Socket Head Cap Screw, GR-12.9, Pack of 25

Cod comanda: **FAB6001001W**

Descriere produs:

This range of ISO metric threaded, hexagon socket head cap screws are manufactured from high grade (12.9) alloy steel, making them suitable for all high tensile applications. Each product has a minimum proof load of 970 MPA and is complete with a slightly oiled finish. Features and Benefits

- o Manufactured from class 12.9 alloy steel that has been quenched and tempered for resistance to corrosion and general hardness
- o Suitable for use with power drivers and a hex wrench
- o Resists cam-out for a more efficient screw
- o With a maximum operating temperature of 300°C making it a robust product
- o Available in a variety of lengths and thread sizes to suit your needs
- o Deep socket head provides optimum loadability

Typical Applications

- o Ideal for the construction industry with their higher levels of torque than a standard screw

Notes

- o Oiled finish (black) - Provides some shelf life but no corrosion protection in use

Standards

- o ISO 4762
- o DIN 912
