

CROMWELL PCL. HA2149, Air Hose, 10mm x 0.6m, R1/4, 21bar

Cod comanda: **PCL2593300H**

Descriere produs:

The PCL(R) anti whip air line hose is manufactured from TPE (thermoplastic elastomer), which is a mix of polymers that both look and feel like rubber, but with chemical and oil-resistant properties that ensures an excellent performance in a range of industrial environments. These air line hoses are ideal for providing a safe distance between a vibrating air tool and quick release coupling for safer working. Features and Benefits

- o Provides excellent abrasion and ageing resistance
- o Flexible with kink resistance to avoid 'whipping' injuries
- o Contributes to safe tool use and helps to prolong component service life
- o Simple to use adaptor and male thread fittings are quick to plug in
- o Easy handling reduces operator fatigue

Typical Applications

- o Workshop
- o Industrial
- o Garage forecourt

Standards

- o Conforms to: ISO 4414:2010 & ISO 6150:2018
- o BS EN ISO 5774 (Textile reinforcement types of plastic hoses for compressed air applications)

Approvals

- o Recommended by Health & Safety Executive Guide HS(G) 39
