

CROMWELL Sherwood. 1/4in. Diameter HSS Straight Shank Roll Forged Jobber Drill

Cod comanda: **SHR0256543B**

Descriere produs:

The HSS Straight Shank Roll Forged Jobber Drills are designed for efficient drilling in wood, plastic, and plain or carbon steels, making them an essential tool for various applications. Crafted from high-speed steel (HSS) using roll forging, these drills boast a robust grain structure for superior strength and durability. Their ground tips enable precise and effective cutting, while the black oxide finish offers added resistance to wear and corrosion. With a 118° point angle, these drills are ideal for tasks that do not require the cutting performance of a ground flute, combining reliability and versatility for professional results.

Features and Benefits

- o Made from roll-forged HSS, providing durability and robust strength
- o Designed with sharp ground tips for accurate and effective drilling
- o Coated with black oxide to resist wear and minimise corrosion
- o 118° point angle supports versatile, all-purpose drilling needs
- o Well-suited for use on wood, plastics, and steels not needing a ground flute finish

Standards

- o Manufactured to DIN 338 Type N
